AFTER-SCHOOL ENRICHMENTS

Monday PM

Berlitz Language: Grades K - 2**

Spanish for K-2 is designed to provide an introduction to spoken Spanish using the Berlitz Method of Instruction, a method that has been proven effective over 140 years. This class is appropriate both for beginners and students who have taken Spanish with Berlitz or elsewhere as we are using a modular curricular approach. The group environment fosters interaction between student and instructor through age-appropriate curriculum that will enhance language skills and foster a global perspective. Each lesson will be conducted entirely in the target language and will have a communicative goal. The program includes: • Language learning based on the conversational Berlitz Method® • Specially trained native-fluent instructors •

Ample opportunity for speaking, listening, and engaging with others • Age-appropriate curriculum and materials. Age appropriate groups. If you have questions about the program or would like to share some information about your child, please email us at schoolprograms@berlitz.us.

Nexplore: Drones**

Nexplore Drones is an Aerospace engineering course designed for students to be able to design their drones and encourage students to explore different drone-based careers. Students interact with state-of-the-art drones and learn how to pilot, how to log a flight while encouraging them to act as inventors in their own safe space. Students build and personalize their own remote-controlled drones to complete missions, based off of real-life scenarios; such as flying medicine to a remote part of the African savannah or delivering mail a few blocks over in your neighborhood to a friend! Drone usage is a cutting-edge skill that is on the rise of demand in today's age. Drones in the air up, up, and away!
